The following message has been sent from Marq Vision Inc.

<report.copyright@marqvision.com> (IP: 58.235.174.122) via the contact form at RaGEZONE - MMO Development Forums.

Request for Cooperation to Cease the Unauthorized Use of Intellectual Property Rights

Dear RaGEZONE team,

We are Marq Vision Inc., writing to you on behalf of Smilegate Entertainment, Inc. (hereafter, the "IP Owner").

The IP Owner is the developer of CrossFire, a globally recognized FPS (First-Person Shooter) game. All intellectual property rights associated with the CrossFire brand, including trademarks, logos, and game-related assets, are the exclusive property of the IP Owner.

For reference, authorized uses of these intellectual property rights can be found on the official website:

[Official Website Link]

<https://crossfire.z8games.com>

We have identified multiple posts on your forum that discuss unauthorized modifications, hacking, and the extraction and distribution of CrossFire's configuration files. These activities constitute a direct infringement of the IP Owner's intellectual property rights. The specific infringement location is as follows:

- Infringement Location:
- CrossFire 2.0 Community
- <https://forum.ragezone.com/community/crossfire-2-0.1070/>

The unauthorized reproduction, modification, and distribution of CrossFire's proprietary content—including in-game assets and resources—are strictly prohibited. The IP Owner has not granted any permission for such activities.

We formally request that you take immediate action to suspend or disable the referenced community to prevent further unauthorized use of the IP Owner's intellectual property. We appreciate your prompt attention to this matter.

For any further inquiries, please contact us at:
report.copyright@marqvision.com

Thank you for your cooperation.

Best regards,
Marq Vision Inc.
