To Whom It May Concern -

My name is Ariya and I'm contacting you on behalf of Virtual Realms Limited. We understand that our data (the source code for our game Warhammer Odysseys) has been posted to the Ragezone forum, <https://forum.ragezone.com/threads/unity-3d-mobile-pc-mmorpg-marshland-warrior.1208238/land-warrior.1208238/>

Our database was hacked, and source code and another data were stolen last year and the hacker posted our source code all over the internet, but we have only just found this post because the poster didn't use our game name, yet the photos and source code are from Warhammer Odysseys that belong to us.

We have not, and will not, authorize the posting of our data on Ragezone.

We need Ragezone immediately support to remove such data from its platform.

Please immediately confirm receipt of this notice, as well as compliance with this takedown direction.

Should you have any question, please feel free to let me know.

Kind regards,

Ariya
